## LIONS CLUB EXCITED TO HOST FIRST ANNUAL EVENT

The Dundurn Lions Club will host their first annual "Dundurn Daze" event on September 9<sup>th</sup> at the Lion's grounds this year. The club decided that they would like to do something for the community to substitute the Mud Flings they had sponsored in prior years. They chose the month of September to cap off the summer as kids are back to school and more people will be home with the ending of the holidays.

All events start at noon with a slo-pitch tourney at the Lions grounds, there will be activities for kids, beer gardens for adults, and games such as human foosball. At the community hall there will be a craft and trade show with tables rented to Scentsy, Monat, Twisted Stitcherz, only to name a few. Michele Morrison (nee Libke) will be at the craft show with her rock art. She finds a unique way to display ordinary rocks into art.

An event like this gives the Lions Club an opportunity to raise money to fund various projects which include the Dundurn Skate Park, the

Rock Art by Michele will be at the craft and trade show

upgrade of the Lions Ball Diamond, and it also allows the club to donate funds to other community events. The Lions Club are seeking volunteers to help out with the event, the concession will be run by Culture Club 2018/2019 as they are fundraising for their upcoming trips. President Reaschelle

Higginbotham said that "Friends of the Lions are welcome to help out, without the commitment of joining the club." They just want everyone to have fun and enjoy the day. For more information on volunteering for the day contact Anita Derksen by email at [dundurnlions@gmail.com](mailto:dundurnlions@gmail.com)

An electronic version of The Dundurn Times is available on the Town's Facebook page and on the Town's website. Print versions are available at the Town Office, MountainView, the RM Office, Little Wok, Dundurn Post Office, Riel Trail Building Supply, Hanley—Thall's Service and Trail Break, In Saskatoon—Vern's Pizza & Husky Centre on 11th St West.

Check out the Newsletters Promotion on page 15

## Life of a Volunteer

The Dundurn Fire and First Responders team have had a busy 2017. From the beginning of the year to present they have responded to 9 Fire responses; 12 Motor Vehicle responses; 29 Medical responses; and 18 were noted as other which includes community service and false alarms.

As career and non-career firefighters, the 22 members of the Dundurn Fire and First

Responders expect to have their work schedules upended; their dinners interrupted; and get a little smoke in their eyes. But as active community first responders, they balance their professional life with the life of a volunteer.

Chief Friesen expressed a need for additional members to join their team, as this would allow individuals a new opportunity to help the community; to grow individually; and to test oneself. For more information on how you can join Dundurn's First Responders email Laura Friesen [mischief@thefriesens.ca](mailto:mischief@thefriesens.ca) or visit their website [www.dundurnfire.ca](http://www.dundurnfire.ca)

**Hanley Sabers Off To An Early Start**

by Glenda Pryor

Pictured - Wyatt Olynniuk and Justin Presnell

Its 6:00 pm in the evening of August 28th and the Hanley Sabers are preparing for their upcoming football season. Football practice started for the 31 players on August 24<sup>th</sup>, as their first home game is scheduled on September 7<sup>th</sup> against the Viscount Vikings.

This year the Sabers are one of the largest 1A – 6 man teams in the division. Head Coach Mark

Anderson said that starting practice early is a big commitment for the kids and the coaches. Practice starts before school as the governing body want to ensure the players are prepared and ask to put in a number of hours of practice before their first game.

After the first home game, the team is on the road for 3 weeks playing in Hague, Porcupine, and Viscount. But fans can look forward to

another home game against the Hudson Bay Riders on October 5<sup>th</sup>.

**Schedule for September 2017**

Thursday, Sept 7 Home Game

4:15 BEGINNER PILATES  
5:30 INTERMEDIATE PILATES

WEDNESDAY CLASSES:

4:15 BEGINNER YOGA  
5:30 SPINLATES

REGULAR MEMBER: \$50  
ORDINARY MEMBER: \$75  
ASSOCIATE MEMBER: \$100

CONTACT GEORGIA BAYER TO  
REGISTER:  
(306)-492-2135 EXT. 4176  
OR  
GEORGIA.BAYER@FORCES.GC.CA  
CAFconnection.ca

YOUR FIRST MONTH IS FREE!

Many people never heard the word “Pilates” until they hear it from a friend or others who have taken the class and find themselves intrigued about what Pilates can do for them; or their practitioner suggests Pilates to deal with chronic pain or to increase flexibility and strength.

Pilates is an exercise to strengthen your core; improve your balance; destress, and improve functional fitness and mobility. It’s great for people who sit at desks all the time as they become center forward; it helps you to stand taller, strengthens your back and weaker muscles, and relieves lower back pain.

Just ask Georgia Bayer, she was introduced to Pilates while residing in Africa 9-years-ago. She found that Pilates was the ideal form of exercise that she was

looking for and her passion for the exercise led her to become a certified instructor and teach Pilates while living in Namibia, South Africa.

When the Bayer family moved back to Thode Townsite in 2014, she took a break from Pilates and decided to change her career path from Pilates and spinning indoor cycling instructor to an administrative assistant. She received her second certification as a Pilates, Spinning Indoor Cycling, and Yoga instructor in May of 2016 in Saskatchewan and started teaching again at 17 Wing - Det Dundurn gym, where she also works as the Administrative Assistant for CAF Central Saskatchewan.

Georgia teaches her own version of Pilates by incorporating the methods she was taught in Cape Town South

Africa, with the North American version. She explains that Pilates and Yoga are different as people get the two confused. “Yoga is more about balance and flexibility, where Pilates focuses on strengthening weaker muscles and correcting body imbalances, as well as, improving posture in all aspects of life including sports, injury rehabilitation, and the ailments that come with aging.” Georgia also likes to keep her classes small with eight people being the ideal number; as this allows for a more personalized workout.

For more information on her noon hour and evening classes, please go to [CAFconnection.ca](http://CAFconnection.ca) Central Saskatchewan, scroll to the bottom - click on recreation and the Pilates tab is on the left hand side. Her next session for classes begins September 6th, give her a call at 306-492-2135 ext 4176.

## MLA BRONWYN EYRE

Every so often, you've like heard someone ask, "Where did the

money go?" The answer is simple and worth repeating. It was invested in what matters to Saskatchewan people – debt repayment, tax relief, infrastructure improvements, better care and a brighter future.

The operating debt of the province of Saskatchewan has been reduced by over \$1 billion, resulting in \$1 billion in interest payment savings. Tax reductions have saved residents nearly \$6 billion, and over 112,000 low-income individuals in Saskatchewan no longer pay any provincial income tax.

Nearly \$20 billion has been invested in infrastructure. 12,000 kms of road have been repaired and rebuilt across the province. There are 15 new long-term care homes in Saskatchewan, with new hospi-

tals for Moose Jaw and North Battleford. And finally, a Saskatchewan Children's Hospital is being built in Saskatoon.

The money went to 40 new or replacement schools in growing communities with repairs and renovations occurring at more than half of all schools in the province; to pay for 800 new teaching positions, 750 more doctors, and more than 3,000 additional nurses of every designation; to double funding for the Saskatchewan Cancer Agency; and toward a surgical wait time initiative that has taken our wait times from the longest in the country to among the shortest.

The money was used to double funding for people with disabilities, triple the funding for child and family programs, and to add 6,000 new child care spaces; it went to our kids and future leaders by doubling funding for K-12 education and investing nearly \$8.3 billion in post-secondary education.

\*\*\*

If you're planning a trip this summer, The Highway Hotline provides up-to-date information on construction, emergency road closures and other activities.

If your summer travels take you out on the water, it is important to practice water safety. The Government of Saskatchewan is pleased to be expanding the Life-jacket Loaner Station program, an important water safety initiative where life-jackets can be borrowed free of charge. The Lifejacket Loaner Stations are available in five locations: Echo Valley, Great Blue Heron, Katepwa Point and Pike Lake Provincial Parks and Regina Beach Recreation Site.

Please visit [www.saskparks.com](http://www.saskparks.com) to learn more about the lifejacket loaner stations as well as the many summer events and activities throughout the provincial park system.

### DUNDURN CHILD HEALTH CLINIC

#### Keeping Kids Healthy!

The Saskatoon Health Region provides comprehensive and compassionate care for your child. A dedicated nurse comes to our community to monitor your child's growth & progress from birth.

For appointments contact:

Saskatoon Health Region Office

## ALL IN A DAYS WORK

Story and Picture—Glenda Pryor

When Dwayne Williams was appointed building inspector for the RM of Dundurn at the beginning of 2017, it was a role that he slipped into comfortably. Not only

because of his 25 years of experience as an inspector, as he has his Level II Provincial Licence and is a Canadian certified building official, but also as he periodically

for the past 10 years filled in as acting inspector for his predecessor Al Hiebert.

But his work doesn't end when he returns home from his day job, as he works in the evening out of his home for the RM at his dining room table. Where specs are laid out, his briefcase lays open, and a stack of binders and notes sit. The specs he goes through are rising as the RM is developing at a high rate. With the busiest areas being in the north part of the RM and Black Rock, just east of Dundurn.

Since the beginning of January 2017 he has issued 22 building permits. But to issue these permits, Dwayne thoroughly goes through each plan ensuring it conforms to the National Building Code of Canada. When he observes an indiscretion with the building plan, he sends it back for revision; he then starts the process all over again. Once Dwayne has signed off on the plan, only then can the builder start to build.

## Chop Chop Timber!

Story & Pictures submitted by Rochelle Fiedelleck

L to R—Bridgette Shannon-Wobeser, Bruce Wobeser, Lynne, Peters, & Lila Wobeser

We knew we had something spectacular when Prof. Janet McVittie, Department of Educational Foundations from the University of Saskatchewan, contacted us requesting a tour of the Outdoor Learning Space and Timber Lodge. Janet and her colleagues were keen to walk the grounds and hear our vision as her passion, teaching and doings aligned with ours. Janet has worked with the U of S and secured funding to create a Prairie Habitat Garden adjacent to the College of Education. The PHG provided us with a framework to grow and cultivate ideas for the Timber Lodge learning space, where wilderness-prairie meets school-yard education.

The spark started last fall when Janet McVittie, Bridget Shannon-Wobeser and Rochelle Fiedelleck had conversations around lifelong learning; how to connect students to nature and place in a meaningful way. From there it grew into a partnership. They began visiting each other's learning spaces, sharing resources and inspiring each other to look past the walls of traditional settings of education.

If you haven't had a chance to see what all the hype is about, take a stroll to Dundurn Elementary School. Once on the playground site, it's hard to miss the hoopla around a turning point

that will change the face of learning. One can immediately envision a place where kids have the freedom to experience backyard prairie play with a wilderness feel, where families enjoy a place to meet, and maybe have a picnic as kids climb, explore and create. Now look beyond that and imagine yourself walking or biking on a meditation path which hugs the school yard. It meanders in and out of trees, secret learning coves, a Tipi, the community garden, and an early childhood learning center equipped with a boat. Ahoy Matey? Yes, you heard right!

These purposeful areas, even boats, allow children endless opportunities to gain various skill in the most natural and optimal ways. Children absorb and expand their imagination, connect background information, question, activate kinesthetic sense, evaluate risk and find space to take a moment to slow down. This is where the real magic happens.

Special thanks to Bruce Wobeser for making the camp-out benches, Henry Peters for the rocks and delivery of, Kaleb Freeden (BRP Mobile Services) for landscaping work, Aaron Bohrsen for his creative ideas as he continues to lead the completion of the Timber Lodge and Neil Middleton (Alan Auld) for structural review of the TL

add-ins. We are looking forward to benches and work areas under the roof of the TL. Once again, the generous donation of time, resources and equipment continues to keep the dream alive.

How can you help? Below are our next initiatives. We are currently in the process of tracking down materials and funds. Do you have an old rowboat or canoe you want removed?? Let us know if you can help out in any way:

- add more landscape material to our areas (gravel, mulch and sand)
- permanently affix old rowboat or canoe to the Pre-K area
- build a small storage shed to store teaching material and loose parts for student play and learning
- create 3 small foot bridges
- collect loose parts: large logs/sticks, old tarps, Rubbermaid/storage containers
- rain barrels
- create a community garden space

To inquiry about how you can help please email [rochelle.fiedelleck@spiritsd.ca](mailto:rochelle.fiedelleck@spiritsd.ca) or [bridget.shannon@spiritsd.ca](mailto:bridget.shannon@spiritsd.ca) or come to the school for a coffee and a visit. Meet you at the TL!

This initiative is made possible by:

Alan Auld Canada Ltd, Allan Construction, BRP Mobile Services, Dakota Dunes Community Development Corporation, Canada 150 Fund, TD Friends of the Environment, Evergreen Fund, ValleyView Construction Inc., SaskTel Pioneers, Nutana Machine Ltd., Holland Garden & Greenhouse, House Appeal Design, EcoFriendly Sask, Communities in Bloom

## MP Tom Lukiwski

Parents, teachers, professors, mentors of all sorts – anyone who works with young people –

knows the sensation of watching a promising young person you know grow and mature into a talented adult who makes the world a better place. That's the sort of feeling I have about Brad Wall.

I hate to admit this, to myself most of all, but I knew Brad Wall when he was barely out of college. Yet, as young as he was back then, there was never a point when Brad's future was in doubt. He conducted himself with natural leadership potential from Day 1.

No matter whether you met him 30 years ago or a week ago, the thing that always strikes people about Brad is his ability to connect with people. He's funny, he's engaging

but he is not glib. He is one of the best listeners you will ever meet and he cares about your story. This quality, above all others, is the one that led him to become perhaps the best premier our province has ever had.

Through his unparalleled people skills, he was able to assemble and motivate a team that took this province further and faster than it has in decades. Many of these have been cited often in the media already but they bear repetition:

- The largest income and property tax cuts in Saskatchewan history
- Slashing surgical wait times
- More support for people with disabilities
- The most aggressive youth retention program in the country
- A record \$8 billion investment in infrastructure to improve roads, schools, hospitals and senior's

facilities all across Saskatchewan.

- Fostering population growth of 132,000 people in eight years

But easily his single greatest contribution to this province was providing inspiration. He believed in this province and its people and his belief was infectious. We transformed, almost overnight it seemed, from a place of gloom, out-migration and government dependency to a beacon of hope, life, innovation and initiative.

Brad was the sort of political leader who only comes along once in a lifetime. We were lucky to have him.

Thank you, Brad, for your service and best wishes to you and family wherever life takes you after politics.

**Moose Jaw-Lake Centre-Lanigan**

### Changes to The Gazette

Submitted by Terry Jenson

It is with regret we advise Dundurn and district that the Clark's Crossing Gazette will circulate its final issue to the Town of Dundurn and the Resort Villages of Thode and Shields on August 31, 2017.

The remainder of our circulation pattern will remain the same and the

Gazette will continue to publish each week on Thursdays.

We thought it would be helpful to the administration of all the above municipalities to have some notice of this pending change in order to make alternative arrangements for the dissemination of legal notices beginning September 6, 2017.

The pickup boxes containing the final August 31 issue will be picked up on

or about September 7. A general notice to readers of a circulation pattern change will be inserted into all papers for Dundurn and the resort villages on August 24.

As always, the newspaper's page replicas are still available online ([www.ccgazette.ca](http://www.ccgazette.ca)) at no charge for anyone who wishes to continue reading the newspaper.

### Attention

#### RM & Dundurn Residents

If you are planning a Controlled Burn, there is a 24 hour Control Burn Reporting Line. Your report will be entered into the CAD reporting system at the Provincial Dispatch Center and will help reduce unnecessary responses. This line is monitored 365 days a year.

**1-866-404-4911**

Please Note: If you have reported a control burn and it becomes out of control

#### call 911

and please inform them that you have a reported controlled burn that has now become out of control.

#### **IMPORTANT!**

**If you do not report a controlled burn and the Fire Department is dispatched, you will be invoiced for the response to your location.**

We also ask that you provide this information locally, during regular business hours.

**MONDAY to FRIDAY**

**8 am - 4:30pm**

**After Hours & Weekends** please contact:

**Tom Willms**

306-222-3839

**Brian Harrison**

306-492-7656

**Terry Benson**

306-492-7777

## Working from home with LouLou's Kitchen

There is more to Jessica Mosure than what meets the eye. Not only is she a stay-at-home mom, but she is an entrepreneur with three businesses on the go. She specializes in gourmet cupcakes, exotic homemade jams, and then there's the spa side of the business, as her and her moth-

er produce specialized bars of soap from scratch, make bath bombs, lip balms and sunscreen.

Lately, she is living out of her kitchen as she's busy preserving, making her famous bacon jam, along with other exotic flavours such as: ginger bourbon peach, tropical rum punch, carrot cake, and apple butter jam, only to name a few. That's only the start! She recently stepped out of her comfort zone of making gourmet cupcakes to making cakes. She loves to create themed cupcakes and the batter and icing she uses is a traditional family recipe.

The business is called "LouLou's Kitchen" which pays homage to her great-grandmother Louise, as she is the source of the recipes Jessica uses. She began this multi-layered venture in the fall of 2016, when she attended a function and purchased a

cake only to find it lacked taste. It seemed that she had purchased a cake which nobody particularly enjoyed and decided at that moment that she could make cakes herself! It didn't take long to ask her grandmother for the family recipes.

The soap business was created as her children suffer from eczema, medication was costly and would only temporarily elevate the discomfort so Jessica and her mother thought there could be an easier solution and hence, created their own brand of soap and the result has been so successful that they are now making different soaps to suit different kinds of skin conditions.

For more information on Jessica's products, check out her Facebook page [LouLou's Kitchen](#), you may also see her at various tradeshow, or text her at 306-717-4875.

# A LITTLE BIT OF Dundurn HISTORY

On the corner of 1st Ave & 2nd Street, sits the former Dundurn Bank which has now been renovated as a home. Searching through a box of archived newspapers at the Dundurn Library, Val the Librarian found an article from the Star Phoenix about the Western Development Museum which was about the Northern Crown Bank in Dundurn.

Below is an exert from the article:

"A businessman in the neighboring community of Dundurn bought the old bank building and was about to remodel it into an office for himself. He planned to "gut" the place, throwing all the old furnishings into the scrap heap.

But a change of heart caused him to call the museum to see if the people there would be interested in salvaging the old equipment.

Museum people were delighted when they saw the oak partitions with their carved rosette designs, the oak counters, brass grillwork and the etched glass that helped give the manager the necessary privacy in his corner office.

The green burlap on the

lower part of the walls, popular in homes and offices of 50 years and more ago, was still in almost mint condition.

Now the partitions, counters, cages, burlap and everything have been put in place in the museum bank. The building is slightly smaller than the one in Dundurn but museum workmen have done a masterful job of making things fit. Walls have also been repainted to make the place as near a replica of the Dundurn bank as possible." -

## The Start of Borealis Circuit - Home Routes Concert Series in RM of Dundurn

Last years artist William Prince—2016 Juno Award for Contemporary Roots Album

Leonard Podolak from Manitoba (pictured) will be performing with Leonard Barry from the UK as a duo on September 19th.

Story submitted by Jeff & Rhonda Morari

Live music is the best music, especially when the listener and artist occupy the same limited space. This is the concept behind the Home Routes concert series. From its base in Winnipeg, Home Routes sends musicians across the country and into the homes of people who host intimate concerts for the local community. This non-profit organization seeks to connect new artists with new audiences, while at the same time providing a wonderful opportunity for new and old friends to gather and enjoy an evening together.

Rhonda and I have hosted Home Routes shows at our former residence in Saskatoon. In 2015 we moved to Glacier Ridge on Strehlow Road. Last year we decided to see if we could make the Home Routes concept work in our new place. We were happy to bring out many of our former patrons, and even a few from the surrounding farms and acreages. This year our goal is to attract as many new faces from the Dundurn area as we can. Our shows last year offered everything from folk roots, to western, to some driving rock and blues. One of our artists: William Prince, won a Juno Award for Contemporary Roots

Album of the Year just a couple of months after our show.

You might wonder what is in it for us? All of the proceeds from the evening go to the artist. We get to enjoy: preparing dinner for our musical guests, hearing their stories, and of course the thrill of having very talented professional musicians play in our home. When we look out on the smiling faces of the audience interacting with the musicians, it is very much worth it.

So how does it all work? People interested in attending a concert can send Rhonda an email. We will forward information describing the musician(s), and provide specifics for the evening. We are able to seat forty people, so those who indicate their intention to attend will be able to reserve their seats until we fill up. A map of our location will be provided, and signs will be placed along local roadways. Doors open at 7:00 with the show beginning at 7:30 sharp. Admission is \$20.00 cash per head. Guests often bring appetizers, or desserts, which are then shared before the show and during intermission. We have had some amazing spreads, so you might want to eat light before coming. Coffee, tea, and lemonade

will be available. Guests sometimes bring their own preferred beverages. During the intermission and after the show, the artists will have CDs and other merchandise available for purchase.

We will be hosting six shows; three in the fall, and three more after Christmas. Once we have received your e-mail expressing interest in the series, you will be placed on our newsletter mail out list. These newsletters generally appear three weeks prior to the show. Rhonda and I would love to see you at one or all of our concerts. This promises to be an excellent season of entertainment and fun.

## MAYOR PER VINDING

Hi folks,

Some updates from our recent meetings. The town is reviewing the transfer station scale, weigh and pay system with the RM to see if it is suitable for implementation with the town residents.

We approved a new tax incentive by-law for new residential infill lots and commercial development for established areas. See the office for more details if you are interested in building.

The Rink Committee will be opening the rink by October 1, which is a few weeks early this year. There are 2 initiation teams this year (2 Atom, 2 Novice, 1 Pee Wee) in the Dundurn Minor Hockey League and it looks like premium ice times will be booked solid again this year.

The Lions Club is sponsoring a Dundurn Daze event Sept. 9. The 200 & 300 block of Second Street will be closed from noon – 5 pm for games and a Show & Shine. There are further activities planned at the Lions Grounds as well. Hopefully you can all make it out.

As you may or may not know, the Town's 1 ton truck was stolen from Dundurn on July 26. To date the truck has not been recovered. We are currently in negotiations with SGI regarding the settlement and will need to replace the unit.

We have had some comments from ratepayers questioning why their taxes are paying for pavement on

Government Rd and for infrastructure in the new development. Please note that the developer has paid for all costs associated with Sunshine Meadows. Any items where the Town may share in costs, such as paving Government Rd, were paid for with the development lot fees collected by the town from the developer. The levy on each new lot within the new development is kept aside and is used for the development. The developer will also maintain the development until the phases are 80% complete. Maintenance includes snow removal, grading, landscaping maintenance etc.

With another year of gardening coming to a close, I met with Loraas Waste Management to discuss a new Green Cart Organics program they test marketed this year with a few other municipalities. These carts would take all our household plant and vegetable waste during May to Oct. It's a great option to divert these organics from the dump or a good option for people who don't own a truck or trailer to haul these items. There would be a fee for the bi-weekly pick up and there is a minimum of 150 residents required to be signed up for the service. The town will be sending out further information and evaluating the interest in the program for the 2018 season.

I attended the Mayor's School in Regina and there were 44 Mayors in attendance. It was an interesting time of discussing with other Mayors the issues common to urban municipalities. There was an interesting

workshop on the relationship between Council and Administration presented by Municipal Affairs and other workshops including "Strategic Thinking", "Decision Making", "Mind-Mapping" and "Best Practises in an Emergency." The City Manager from Prince Albert presented a very enlightening presentation on what his city went through during their water crisis last year.

Gale Hagblom held an information night August 9, regarding the Town's new Community Plan and Zoning By-law. We were a small group but had some very good discussion of items that were meaningful to several residents. Some topics included the short deceleration lane into Dundurn, what to do about the many empty lots in the residential and commercial zoned areas; and what Council can do about unkempt properties with houses and old buildings in need of paint or new siding.

We also would like to welcome Glenn Robbie as the new Public Works Operator. Glenn brings many skills and attributes to the town and we look forward to working with him.

I'd like to give thanks to our summer students, Will Pryor and Zac MacDonald. They did a great job over the summer, the town looked great. We wish them well in their studies for the new school year.

Until next time,  
Have a great day, eh?
