## Mayor's Blurb

*Hi again, folks.*

A big welcome to Kaitlynn Roberts, our newest team member. Kaitlynn joined us on April 3<sup>rd</sup> and is settling in. Stop in and say hello.

Here we are at the end of April and it still makes one wonder what season we're in. One day Spring, the next day Winter. Just as the seasons change you will notice a change to the newsletter. I think it looks good.

The assessments have gone out and Council will be reviewing the mill rate in upcoming budget meetings. The School Board has reduced their mill rate from 5.03 to 4.12 due to the 2017 re-evaluation of assessments by SAMA.

The Sunshine Meadows developers are getting ready to pave Government Road and parts of Phase One. They will be officially opening for sales very soon (June 2017) and will have several show home available for viewing.

We had a meeting with the developers at the school and we will be helping them with the new outdoor learning space they are planning. The children are going to benefit greatly from this new learning space. Stop in at the school and have a look at the plan.

The Dundurn and Area Waste Water Utility is having their Annual General Meeting on May 18, 2017 at the Hall. I want to encourage you to attend this meeting.

If there is some one in Town who would like to let their name stand for election to the Dundurn Area Waste Water Utility Board please contact the Town Office. There is a position open for election for the next term. It is important that we have representation on this Board.

Until next time, have a great day, eh?

*Per Vinding*

## Welcome!

Kaitlynn Roberts is our new Administrative Assistant. She is trained as a legal assistant through Saskatoon Business College and grew up and lives in Kenaston. Kaitlynn brings a friendly smile and enthusiasm to the position. We look forward to working with her and she looks forward to meeting the residents of Dundurn.

### Snowbanks May, 1907, recalled

Sixty years ago today, Joe Zeman went from Saskatoon to Regina on a snowplow!

On May 4, 1907, Mr. Zeman, of 114 Ave. B, north, rode the railroad snowplow to clear the track from here to Regina.

"It had stormed every day from Feb. 26 to May 3 of that year." Mr. Zeman recalls. "On May 3, the storm stopped and the next day one of the other sectionmen and I had to clear the tracks. We hit one solid snowbank that was 16½ feet high and stretched from Dundurn to Bladworth."

On the trip back, two days later, all the sectionmen went snowblind.

"At Craik, we hit an ox on the crossing."

The train was derailed and all the men badly shaken. The engineer broke a leg, and a boxcar was upset.

## MP TOM LUKIWSKI

As some of you may know, a couple of weeks ago I experienced a significant health incident. I've been struggling with how widely to share this personal matter but have come to the conclusion that my constituents deserve to have all the facts about it.

On April 14, I arrived in Regina from Ottawa about supper time. My wife, Diane, was there to meet me at the airport and our plans were to travel home to Regina Beach, meet up with some friends, then go to the golf club for dinner. But as soon as I got into my vehicle, I knew something was "off".

At first, I could not remember where the ignition keyhole was located. When I finally got that figured out, I then could not determine how to adjust the outside mirrors. After we got mobile, I took the wrong route out of Regina. These periodic episodes of confusion continued for a couple of hours. In fact, it wasn't until the following morning until I realized that something had happened to me.

My doctor later confirmed that I had experienced a "transient ischemic attack" or TIA, also known as a mini stroke. Luckily, both my cognitive and physical skills appear to be unaffected. However, of course, I have been

undergoing numerous tests: neurological and cardiovascular exams, heart monitoring tests and appointments at the stroke prevention clinic have been the norm since the incident.

I consider myself to be very fortunate. Through sheer happenstance, I had previously booked a medical appointment with my doctor for just a few days after the incident. When I related to him what had happened on the weekend, he immediately scheduled a CT Scan, which revealed that I had a TIA. Had I not gone to that appointment, there is a good chance that I would have simply ignored the warning symptoms, and considered the entire episode as a case of fatigue.

So, to make a long story short, my advice is this-----if you experience any of the warning signs of a stroke, SEEK MEDICAL ATTENTION IMMEDIATELY! Don't screw around with your health!

I would also like to take a moment to thank everyone who has sent me their best wishes. In particular, I would like to recognize my many Parliamentary colleagues, of all parties, who have sent me their thoughts and prayers. Your thoughtfulness and support have meant a great deal to me.

## MLA BRONWYN EYRE

Many areas of Saskatchewan's already diverse economy are strong and getting stronger. For example, new numbers show manufacturing sales in Saskatchewan are up nearly 23% over last year. Building permits are up 10%, housing starts are up 50%, and Saskatchewan's population continues to grow at a pace our province hasn't seen in 90 years.

Saskatchewan had Canada's best job creation record in February, followed by another strong month in March. Our retail sales and new vehicle sales growth is second-best in the country, with capital investment growth third best in all of Canada. The oil industry is even showing signs of recovery. New well drilling doubled in the first quarter of this year compared with last year.

You can learn more about our three-year plan to balance the budget, maintain the Saskatchewan Advantage, and keep our economy strong, despite commodity price challenges, at [saskatchewan.ca/budget](http://saskatchewan.ca/budget). I would like to hear from you.

### In other legislative news:

Our government has also introduced and passed legislation improving safety for tow truck operators. *The Traffic Safety (Tow Trucks) Amendment Act, 2017* allows for blue lights to be used in conjunction with amber lights on tow trucks. Passed with unanimous support the day it was introduced, the legislation comes after tow truck operator Courtney Schaefer was killed in a March 7, 2017 collision along the roadside in the Gerald area during blizzard conditions. Saskatchewan is the first jurisdiction in Canada to introduce a two-colour lighting combination for tow trucks. The addition of blue lights isn't mandatory but adding them will increase visibility, heighten awareness and increase safety. Tow truck operators will be able to install blue lights once the bill receives royal assent and is proclaimed later this spring. SGI will be undertaking public awareness efforts to educate the public about blue lights on tow trucks.
