RM OF DUNDURN FACES 2018 PACKED WITH ISSUES

By Glenda Pryor

The RM of Dundurn Ratepayers voiced their concerns on Tuesday, January 16th during the RM's AGM meeting at the Dundurn Community Hall. Attendance was high as this is the first AGM meeting in conjunction with a Ratepayer's meeting in approximately 8 years. The Ratepayers had vital questions they wanted answered during the open forum portion of the meeting.

Don Ewart chaired the meeting and commented that after the presentation of the agenda items, they would facilitate adequate time for questions during the open forum. The Reeve provided a brief summary that introduced agenda items: the municipal census growth, unionization of the RM Staff, future growth of residential and commercial development in the RM, the recreation complex, the military road, the scale and rates at the transfer station, Canada Post's distribution of mail in the sub-divisions, Dundurn area waste water utility, and APAS.

Mediator Don Ewart (left) addresses rate payers before the start of the AGM meeting as Reeve Trevor Reid (seated) goes to the podium

The open forum began with Ratepayers voicing concerns such as: the recreational complex study, the proposed fire hall, high tax increases, poor road maintenance, foreman staffing, road and vehicle tenders, inadequate details provided in the Council's minutes, development of an effective website and several conflict of issue items. In addition to these concerns, Ratepayers expressed worry about community segregation.

Folks who stood up to the mic sent a clear message to Council of their concerns. Some said that a recreational complex and fire hall located in the RM was unjustified as both facilities are currently located in the Town that serves all four communities. The RM has currently spent \$60,000 on the complex study, and projects the complex to be constructed in phases with an estimated cost between 7 to 12 million dollars. Some concerns

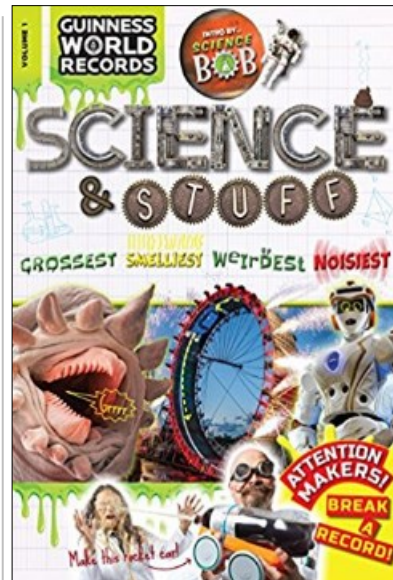

made, were the potential to divide the communities of the RM and the Town. The Reeve suggested a vote at the end of the meeting to progress with the study or abandon it. The vote yielded in favour of abandoning it.

They requested to have more Ratepayer meetings, and to have more information on the Councillor's representing their areas. Mr. Ewart suggested quarterly meetings, with questions brought forth to the Reeve prior to the meetings so he would be better prepared to address citizen's concerns.

Some Ratepayers suggested to the Reeve transparency was vital. The Reeve, who was the voice for the RM Council, received a room full of Ratepayers who had some tough questions and committed to provide an answer to anyone who wanted to submit a question within seven days.

LIBRARIAN'S CORNER - BOOK REVIEW

Anyone Can Sew sets out to prove its claim with a treasury of know-how and ideas appealing to every skill level. This beautiful full-color title is packed with step-by-step instructions in essential sewing skills and features over forty original projects for the home including clothes, bags, toys, and gifts.

Guinness World Records: Science & Stuff is a whirlwind tour through the astounding, record-breaking world (and universe) around us, with an intro from TV science educator and author Science Bob. Packed with spectacular superlatives, shocking stats, fantastic facts and fun figures, *Science & Stuff* celebrates the simple joy in finding things out. It tackles the big questions that keep people up at night.

**MAYOR- PER VINDING**

Hello again,

It sure is nice to see the white stuff

again. I was starting to think that we were not getting any more snow until next winter. Even my dog likes it.... But enough about that.....

We are working on Council see Town growth. We want to see folks move into Town and set up business. For years Council has wondered whether to get businesses into Town and then hope the population grows, or do we get the population to grow and then hopefully businesses will come and set up shop. My thought is the latter. Get people here and the businesses will follow. We also need our population to grow to increase our tax base. Theoretically, the larger the tax base the lower the cost to individuals. The Sunshine Meadows development will attract people. Council has put into place some tax incentives to attract new residents.

We are in the process of annexing land across the highway for highway commercial.

Hopefully this will spur Town growth as well. The land owners have requested that the land become part of the Town. We sent the request to the RM and they have agreed to proceed with this process. With this annexation we will be approaching the Dept. of Highways to look at putting in proper acceleration and deceleration lanes on the highway going north and south. When the population grows that intersection will need to see some improvement.

As Reeve Reid mentioned at the RM AGM, the Dundurn and Area Waste Water Utility is in the process of transferring to each Municipality the assets that pertain to each municipality. The Town has advocated for this for some time. We will be looking after our lift station and the force main from our lift station to the lagoon. The Saskpower and SaskTel accounts have already been transferred to the Town. The Utility will be dealing with the lagoon only. With these changes to the Utility we are looking at

purchasing extra lagoon capacity from the RM. This will allow us to have ample lagoon capacity for future growth.

Council has requested that the force main portion of the Tangible Capital Assets Reserve that the town contributed be returned to the Town when the transfer process is completed. This will give us a good start to having funds in place for future repairs to our lift station and force main.

For the past number of years, the Town has contributed approximately 40% of the user fees to the Utility and has contributed to the repairs in other Municipalities. The Town has requested that the Utility refund this overpayment.

The cost associated with the truck dump repairs at Shields was not paid for according to the operating agreement, so the Town has requested that this be rectified. Council feels that Town should not pay 40% of the cost for something that is in another Municipality.

Until next time, have a great day, eh?

WHEATKINGS HOCKEY

Story submitted by
Jake Safarik

Photo's taken by
Landon Johnson

Goalie Brody Richmond (pictured left)

(Below) Coach Joel Peters from Hanley gives a pep talk before the game.

On Friday, Jan 12th the Dundurn Wheatkings were in Craik and probably played their best game of the season so far. Craik managed to pull it out 7-3, but if a couple bounces went the other way it

would have been much closer.

Cody Presnell had 3 assists and Colten Olyniuk scored a great goal. John Peel had a good scrap and it motivated the boys to play a strong third period.

KIDS ARE "ACTING" UP DURING CLASS

Submitted by
Katie & Ella
Dundurn Elementary
Grade 6 Students

Dundurn School had a special guest in January. Miranda Hughes came from Persephone Theater in Saskatoon. She

acts, teaches kids how to do dramatic theater and is a costume designer. Wow! Doesn't that sound like fun!

Miranda taught the kids to loosen up and have fun with acting. What a fun experience for all the kids and even the teachers had fun. Lots of kids learned new things especially about improvisation. Hollywood, you better watch out we have actors and actresses coming to you!

Attention

RM of Dundurn and Dundurn Residents

If you are planning a Controlled Burn, there is a 24 hour Control Burn Reporting Line. Your report will be entered into the CAD reporting system at the Provincial Dispatch Center and will help reduce unnecessary responses. This line is monitored 365 days a year.

1-866-404-4911

Please Note: If you have reported a control burn and it becomes out of control

call 911

and please inform them that you have a reported controlled burn that has now become out of control.

IMPORTANT!

If you do not report a controlled burn and the Fire Department is dispatched, you will be invoiced for the response to your locations.

We also ask that you provide this information locally, during regular business hours.

OFF TO AN EARLY START

By Glenda Pryor

On the weekend of January 20th, the Dundurn Wolfpack Hunters Initiation Hockey Team hosted a hockey tournament at the Dundurn Rink. Three-year-old Carson Peel is one of the youngest player's for the Wolfpack Hunters and the team started off the first game of the tournament at 9 am Saturday morning. Carson's parents started him out on skates when he was 18-months-old and being a quick learner, he's been skating on his own since age two. His dad, John Peel who plays for the Wheatkings, is moulding his son into a NHL player!

3-Year-Old Carson Peel, (pictured centre) is #3 for the Wolfpack Hunters and he isn't scared to get in there with the big guys

DUNDURN PRINCIPAL - CHERYL SHIELDS

January brought extreme cold weather and with it the Polar Bear Club to Dundurn School spearheaded by Mrs. Peters was created. The school has an indoor recess when the temperature is -27 or colder. If parents give permission students can bundle up and join the Polar Bear Club to go outside during indoor recesses. We currently have 46 students signed up!

January also brought record-breaking warm weather which teachers took advantage of by conducting many outdoor learning classes. Skating, for most grades, has become part of weekly Phy. Ed. classes across the street at the town rink. The grade 5 and 6 classes are looking forward to their ski trip to Table Mountain on Feb. 7th.

Basketball opportunities were two fold this month. The gr. 5/6 School team had great fun practicing and playing against South Corman Park School. Thank-you to the coaches Mrs. Fiedelleck and Mrs. Krueger. The SCC basketball team gr. 3-6 coached by

Brandi Dieno continues through February into March. Thanks Brandi!

The Art club is off to a great start with four different projects for the Grade 3-6 students. Leadership, encouragement and direction of four Grade 6 students and Mrs. Shannon have been an essential part of planning the four projects offered this year.

Thank-you to the parents who joined the conversation with guest speaker Ken Dueck about bullying last month. We believe that good communication between home and school is vital to the success of your child. We believe that we are partners in your child's education and emotional growth. If, at any time you have a question or concern related to your child at school, please contact us. We understand that sometimes it is difficult to express a concern, but it is always best to keep the lines of communication open. The first point of contact should be your child's teacher. Send a note or call 306-492-2050.

We are accepting registration for

Kindergarten students (Born in 2013) for the 2018-19 school year. Please spread the word and contact the school to register/or for more information. Phone # 306-492-2050 or email: connie.lenard@spiritsd.ca

The next SCC meeting is March 28th (5:00 – 6:30). Everyone is welcome!

Important upcoming dates:

Feb. 7	Pizza lunch
Feb. 7	Gr. 5 & 6 Table Mountain Day Trip
Feb. 14	Guest Author Jamie Coulson
Feb. 16	Gr. 1 & 2 Gymnastics & Forestry Farm Field Trip
Feb. 20 – 23	Winter Break No School
Feb. 26	Classes Resume
Feb. 28	Sub Lunch

HANLEY PRINCIPAL - CHRIS TUCKER

Wednesday, January 31st is the midway point of the year and a day for report cards to be prepared and planning to begin for Semester two. There are no classes on that day. Semester two classes begin on Thursday, February 1.

I want to encourage all grade 11 and 12 students who are interested to see me about finishing a Youth Apprenticeship Program. It sees students working through some simple apprenticeship assignments that will give them a step ahead of others who might be

also looking to enter an apprenticeship agreement to start their career. It's also important to note that we have had a few grade 12's already receive conditional acceptance to university programs starting in the fall. It's an exciting time for them all as their life after grade 12 begins to take shape.

February break will start on Family Day, February 19th. The grade 12 Work Experience will take place following the break as we've had in practice for a few years. The School Community Council would like me to mention that we still have copies of the Community Calendars available at the office that families ordered this fall. The

cost remains at \$10 each.

I was very proud of the school and community to see so many donations this season to our call for clothes and food items to help those in need. What a great example for our students to see and witness the generosity and assistance for others.

That's all for now. For further information and updates from the students and classrooms check out our school website at <http://blogs.spiritsd.ca/hanley/>. As always, Mr. Anderson and I would love to talk to you if you have time to drop by the office or give us a call.

Please keep our sewer system clear by not flushing grease, oils, disposable wipes, and hygiene products.

Although many products are advertised as flushable, they should not be flushed.

The Town of Dundurn recently had a sewer back up at a cost of \$2,700 to clear.

That equates to \$9.85 per household, and the culprit...BABYWIPES!

Thank You

MLA BRONWYN EYRE

Happy New Year!

I'm encouraged by new statistics that show Saskatchewan exporters are leading the nation. Our wholesale trade grew 21 per cent last year, the best in Canada. And thanks to our outstanding entrepreneurs, our wholesale trade is up more than 75% over the past 10 years.

The new year brings new incentives for small businesses to hire more workers and invest new capital here in Saskatchewan. Effective January 1, the amount of income up to which small businesses pay tax at the much lower two per cent small business tax rate moved from \$500,000 to \$600,000.

Meanwhile, Saskatchewan's 12 per cent corporate income tax rate continues to be competitive and among the lowest in the country, further enhancing our province's significant ad-

vantages when attracting new investment and jobs.

Also in 2018, Saskatchewan residents will benefit for an entire calendar year from lower provincial Personal Income Tax rates, which dropped half a percentage point effective July 1, 2017. Saskatchewan Personal Income Tax rates will drop by another half point on July 1, 2019.

A bitterly cold holiday season, and continuing cold weather, have many of us looking forward to warmer days. Here in Saskatchewan, many of those days are spent visiting our Provincial Parks.

Seasonal camping – which is offered at a discount from the regular nightly camping – provides an opportunity to secure a campsite from mid-May to the end of August, and even into September at some locations. Due to its popularity, sites are allocated via a lottery system.

You can visit www.saskparks.net to

apply for a seasonal site by Thursday, February 1, 2018. The draw to award campsites taking place on Monday, February 5, 2018.

Those who are interested in making nightly reservations can do so starting Monday, April 9. As has been the process for several years, now, nightly campsite reservations will be staggered with a registration launch taking place over 12 days.

During a decade of growth, the Government of Saskatchewan invested more than \$100 million in upgrades and improvements to provincial park infrastructure.

Projects undertaken include the development of two new campgrounds, upgrading or replacement of service centers, extensive campsite electrical expansion and upgrading, water and wastewater system upgrades, new and enhanced boat launches and new campsite furnishings.

TOWN POSITIONS ITSELF FOR MORE GROWTH

At the regular meeting of council on January 8, the public hearing for the proposed annexation of 47 acres SE of Hwy 11 and Hwy 211 opened to anyone that wanted more information or to file an objection to the proposal.

The proposed annexation was requested by the owners of the land, who also are the developers of Sunshine Meadows, a 90-acre development of mixed residential and commercial retail on the SW side of Hwy 11 in the town.

Town Administrator, Eileen Prosser explained the land owners approached the town in May of 2016 to annex two parcels, the current proposed 47 acres and another 147 acres south contiguous to the current Sunshine Meadows development which they own as well. At the time the RM declined to approve the annexation. Later on, the land owners revised their request to only the 47 acres, as they had more immediate interest from potential commercial industrial businesses for the parcel.

The Town consulted with Planner Jim

Walters from Crosby Hanna & Assoc., who also prepared the town's Future Growth Study, and a new request for annexation was sent to the RM in which they approved December 20.

The hearing was attended by all of Council, Town Planners Jim Walters, Gale Hagblom and a town citizen, who had concerns regarding traffic issues at the entrance to Dundurn if more development were to take place in addition to the 90-acre residential and commercial. He explained the highway has become busier over the years and at certain times of the day, it's very dangerous leaving town going North with all the traffic. He also questioned why the owners wanted the land within the town boundaries and why it couldn't be left in the RM. He asked if it was due to wanting the town to finance the water and sewer infrastructure required to service the land.

Administrator Eileen Prosser explained that a Traffic Impact Study (TIA) was requested by Ministry of Highways and Infrastructure (MHI) for the current Sunshine Meadows development and they are aware of the suggestions in the report. The developers are also required to reconstruct, in financial partnership with MHI; the acceleration lane going north towards Saskatoon in Phase 2 of the

development. As for the town financing infrastructure costs in a new development, "it did not happen at Sunshine Meadows and would not happen in any future development," explained Prosser. "Developers pay for the cost of their development. Not only do they pay for all costs within the development, in fact the town receives an additional off-site lot levy from the developer every time a lot is sold. This is the norm for new development and the Town's standard going forward". The storm sewer and water line constructed from the lift station to Sunshine Meadows property line was the town's responsibility to cover, however all costs were paid upfront by the developers and the town's agreement is to pay it back interest free through a portion of the off-site lot levy's as they are collected. The concerned citizen hoped that Council would be pro-active to resolving the traffic safety issues at the entrance and work with MHI and the RM of Dundurn before it becomes an unbearable situation instead of waiting until it is. The next step after the public hearing is to complete an Application and Proposal Form and send along with the minutes of the public meeting and any other submissions received, to Community Planning for a decision on the requested approval.

Saskatchewan Lotteries Community Grant Program

Saskatchewan Lotteries Trust Fund was created by volunteers in 1974. The Trust Fund revenue is generated through the sale of Saskatchewan lottery tickets. Throughout Saskatchewan over 12,000 sport, culture, recreation and community groups benefit from the Trust Fund.

The Saskatchewan Lotteries Community Grant Program assists in the development of sport, culture and recreation programs by providing funds to non-profit community organizations that are operated by volunteers. The Town of Dundurn administers the grant on behalf of Saskatchewan Lotteries.

The Goal of the program is to get people involved in sport, culture and recreation activities, especially those activities which encourage participation of under-represented populations in our community, such as:

- Children and teenagers, especially at risk-youth;
- Economically disadvantaged;
- Inactive seniors;
- Persons with a disability;
- Single parent families; and
- Women

If you are involved in an organization or would like to start a program or activity in Dundurn that meets the mandate & guidelines and would like to apply for a grant, please contact the Town Office at info@townofdundurn.ca for guidelines & application form. If you are approved for funding, the deadline to use your funds in March 31, 2018.

DUNDURN GOSPEL CHURCH - PASTOR WES DYNNA

"O Canada We Stand On Guard For Thee"

Kerfuffle is defined by Merriam-Webster as "a disturbance or commotion typically caused by a dispute or conflict." (Sourced online at www.merriam-webster.com on Monday, January 22, 2018, 18:30 Hours.) In my opinion this is a dismissive, and more than a bit trite, depiction for the subject and seriousness of the issue for which the Prime Minister used the word for. To suggest kerfuffle adequately and responsibly addresses a pro-life response to the subjugation and surrender of deeply held beliefs on life and freedom as it relates to the unborn child, in order to be eligible, at all, for summer student government funding belies a prejudicial agenda unbecoming to the position, prestige and purpose of the Prime Minister and Government of Canada. Such political heavy-handedness derives from a legally vacuous ideology which

has choice as its mantra and cessation of life as its mission.

In stating this, I am mounting no ecclesiastical bucking horse in an attempt to run righteously roughshod over dissenting opinion. I am appealing for the recognition and rightful place of the opening premise of our Canadian Charter of Rights and Freedoms to find its way into the individual and our collective conscience afresh. Stated, this preamble reads, "Whereas Canada is founded upon principles that recognize the supremacy of God and the rule of law," the document only then goes on to define more specifically the rights and freedoms guaranteed for all Canadians. And, I maintain, unless this order is recognized, respected and reflected throughout our institutions, including government and the judiciary – 'supremacy of God' first, and then 'the rule of law' – we have no transcendent authority outside of ourselves by which to chart our course

as a country and no enduring canon from which to generate the laws of our land. Without the recognition and acknowledgement of God, trivialization of life escalates and the most vulnerable of our society are placed at risk. Without respect for law, ideologies, individualism, even intimidation begin to rule the day. As Mark Steyn tersely states, "A world without order eventually liberates all restraints" because "there's no monopoly of depravity." (America Alone: The End Of The World As We Know It, p. 152)

Citizen and country not guided by faith and guarded by just laws, protecting not only the strong but the weak and vulnerable of our society, invites not peace and prosperity but existence without an overarching plan, protection or purpose.

"God keep our land glorious and free."

GETTING THE "SEACRET" OUT

By
Glenda Pryor

These days, Lisa Block wears many hats! First - she is a wife and a mother of two. Second - she is a graphic designer. And lastly - she's a Seacret Agent. Since 2001 her main career focus was being a graphic designer, but since being introduced to Seacret in 2015, she has now placed her focus on being an agent for the skin care line and is helping people with their skin conditions.

For those of you who are not familiar with Seacret, it is a Dead Sea product that has evolved into the world's greatest natural source of raw material for facial and body skin care. The company started out in a mall kiosk which proved that direct sales can be a great business strategy as they made a billion in the first five years of introduction. The company has now shifted their focus to home agents who can reap the benefits of income, free product, plus the

company lowered the cost of the product by 60% in order to make it more affordable.

Lisa's passion for Seacret started out when a friend invited her to an online party. At the time, Lisa was concerned about a few skin problems she was experiencing and decided to give the product a try. That first contact with the product opened a door for her; not realizing that it would grow into a successful home business. Currently Lisa has 8 personally enrolled agents beneath her that she coaches and helps them build up their own business. Seacret has allowed her to expand her product supply, gain trips, and income all from her home.

The growth of her business has been hard work, she explained that it's a hit and miss business, but her persistence has paid off. Her main means of communicating the benefits of Seacret has been through network marketing.

"Social media is the best way to talk about the product" stated Lisa. The company itself encourages their agents to become a better person by giving online seminars on how to deal with stress, gain a positive attitude, and she was taught "if you help enough people get what they want, you will never have to worry about what you want".

LORAAS ORGANICS SYSTEM

Loraas has adopted the fully integrated CORE® Cover technology for the treatment of your organic waste. This system provides optimal results with consistent high-quality compost while effectively controlling emissions and odours. The CORE® Cover system is scientifically proven to work and meets strict regulatory requirements. This unique design is capable of processing up to 28,000 tonnes annually reducing harmful landfill emissions and diverting 40% to 70% of our current waste stream from the landfill.

COST-EFFICIENT SERVICE

Organic waste accounts for a large portion of the current waste stream. By placing your waste in the right place, our Organics program can easily and effectively reduce your waste outputs. Loraas will provide you with the highest quality of service and insulated containers for your organic needs. Sign up to get a green bin today!

ALL FOOD WASTE ACCEPTED

Our state-of-the-art composting facility allows for a large variety of organic waste including green waste, food waste, source separated organics, meat and dairy products and virtually all packaged foods. Our system alleviates previous composting issues such as meat, bones, dairy, fats, and MORE! We cannot accept biosolids or liquids.

YEAR-ROUND SERVICES

The CORE® Cover system allows Loraas to provide year-round services to our customers. Our composting facility differs from previous designs as it is not affected by our Saskatchewan winters. Loraas has invested in high quality insulated composting container in a large variety of sizes. Rain or snow, your organic needs will be met.

ONLY 48 MORE DAYS UNTIL SPRING

- **New Organic Waste** green cart pick up program from Loraas,
- Is available to Town residents if minimum of 30 household sign up for program
- No more bagging your grass, leaves or branches,
- No more piles of old garden or yard waste laying around to get rid of,
- No more begging your friends to use their truck for a dump run,
- An easy and convenient program that allows you to dispose of all your food and yard waste, to be processed into nutrient rich compost, rather than to waste at the dump or burning pit causing particle pollution.
- Program runs from May 1 to October 31 with bi-weekly pick up. Year round available too, using the convenient insulated carts, just ask.
- Minimum 30 households must sign up for program in order to have organics pick up in Town,
- Rate \$9.00 per month from May to October

Sign up by April 1 at the Town Office to let us know you interested in the program.
