## RESHAPING CANADA DAY

## DUNDURN'S SOCIAL DISTANCING CELEBRATION

By  
Glenda Pryor

It was a quieter celebration for Canada Day in Dundurn this year, which marked the 153rd birthday of our Country. The Town usually pulls off quite the party, but with COVID-19 restrictions in place for group gatherings over thirty (30) people, large Canada Day festivities

were forbidden from coast to coast.

Gary Grady, owner of Big Mur's Tavern and local resident Norman Mowles decided on their own to come up with a plan for Canada Day....to hold a vintage car and kid bike parade to mark the country's birthday in Dundurn and still attain social distancing.

The response was received as participants for the car show came from the neighbouring town of Hanley, the RM of Dundurn, Saskatoon and Dundurn itself. Mowles, an avid car collector, had contacted various Saskatoon car club's to invite them to the parade, while Gary spread

the word via Facebook and by word of mouth.

Forty-five cars in total participated; and over 30 children decorated their bikes for the parade. Residents could view the vintage cars at the starting point at Mountainview Food and Fuel on Hwy 11 South or they could walk out their front door along the parade route as it weaved their way through town. Many chose to walk to Main Street to see the kids and vintage vehicles

Gary and Norm would like to give a huge shout-out for all who participated. And thank you Gary and Norm for helping us celebrate this year's Canada Day!

Submitted by:  
Dundurn Fire Department

Now that summer has arrived, it's time to fire up the barbeque. Although many people use their barbeques year round summer seems to be the time when they are most readily used. Here are a few tips from Dundurn Fire to make your barbequing a safe and more enjoyable experience.

1. Keep your grill a safe distance

away from your house.

2. Clean your grill regularly. Grease is a major source of flare ups.

3. Check for gas leaks. Propane is odourless in its natural state. The odour comes courtesy of an additive called Ethyl Mercaptan. It's added to the propane, so you can detect a leak and react accordingly. Natural gas is also an odourless gas. For easy detection, Ethyl Mercaptan is also added to natural gas. Most people describe the smell as rotten eggs or hydrogen sulfide like odour. It smells bad for a good reason - in case of a gas leak.

4. Keep a spray bottle of water handy. That way, if you have a minor flare-up you can spray it with the water to instantly calm it.

5. Keep a fire extinguisher within a couple steps of your grill.

6. Never turn on the gas while your grill lid is closed. It causes gas to

build up inside your grill, and when you do light it and open it, a fireball can explode in your face.

7. People often think it will be safe to use a grill, especially a small one, indoors. NOT TRUE. In addition to the fire hazard, grills release carbon monoxide, the deadly colourless, odourless gas. That gas needs to vent in fresh air.

We must also remember that with the new phase in rules and relaxing of some regulations COVID-19 is still a serious concern. Countries around the world are indicating a resurgence in the number of reported Coronavirus –related infections. Please continue to respect social distancing, hand cleanliness and if you don't feel well, stay at home. Stay Healthy and Stay Safe.

## Class of 2020

### - A New Way to Graduate -

By  
Glenda Pryor

When school's across the country closed their doors this spring, grad ceremonies were called off or delayed across the country. But as phases of COVID-19 were introduced, and social gatherings became more lax, it seemed a good time for the 16 Hanley graduating students to celebrate together.

This year's graduating class traded the traditional ceremony for something different. A more relaxed celebration! Which was spearheaded by parents Wendy Englot, Cindy Prosofsky and Cherie Gogol, who felt it was important for the grads to have closure to their final year of high school.

Forced to forfeit the banquet and formal ceremony, a social gathering took place at the Hanley Golf Club followed by a parade

Graduate Taylor Lindberg poses with brother Jake and mother Aimee Eckhart, while Amy Lindberg takes the family picture.

through the town on Evashenko Trucking's flat bed trailer for family and residents to wave their congratulations to the students.

Wendy Englot stated this gave the graduating class an opportunity to dress in

their finest and see each other off as they begin their new adventures. Joining the tail end of the parade was Shop Teacher Heath Tyndall, who has officially retired this year.

This grad has without a doubt, made history!

Graduating Class of 2020 (Top); Conor Prosofsky chauffeurs Heath Tyndall (Below) ; Graduate Hayden Pitzel and the float parade.

**HON. BRONWYN EYRE - MLA SASKATOON STONEBRIDGE & DAKOTA**

My MLA colleagues and I return to the Legislature on Monday, June 15, to introduce and pass the provincial 2020-21

budget. Since the Legislature was suspended on March 19, I, personally, have participated in hundreds of calls, remote meetings and round tables with stakeholders, constituents, federal and provincial colleagues, as well as briefings, Cabinet and Caucus meetings, and media interviews and announcements. For all of us, the preparation, engagement and listening haven't stopped. They've simply taken a different form. And now, a new, less remote chapter begins.

Thank you, Saskatchewan, for your engagement, input and advice—and, most of all, for your resilience during this unprecedented time. It is, as always, an honour to serve you.

#### Latest developments:

Pre-kindergarten to Grade 12 students will be returning to classrooms in the upcoming school year, which is set to begin on September 1. I would like to congratulate all high school and post-secondary graduates from the

Class of 2020. You are the future of this province, and we are so proud of your hard work during this challenging time.

Our province recently entered Phase 3 of the Re-Open Saskatchewan plan, which has seen restaurants, gyms and other personal care services resume serving clients within the guidelines set forth by Saskatchewan health authorities. Included as part of Phase 3 is the re-opening of beaches and playgrounds.

Our government also recently announced the expansion of the Saskatchewan Temporary Wage Supplement Program to include a larger number of workers, including those in our long-term care facilities. These workers have provided tremendous support to our seniors throughout the COVID-19 pandemic, and we want to recognize their important work.

Small businesses are a critical part of our economy and, as we move into Phase 3, it is also important to ensure that these businesses continue to operate without the fear of eviction. As a result, we announced commercial eviction protection for tenants who

have been impacted by the pandemic.

In Saskatchewan, 87 per cent of workers have been able to continue working throughout the pandemic and, as more businesses start to re-open, more will be able to return to work. The latest Statistics Canada figures show Saskatchewan added 600 new jobs in May and has the second-lowest unemployment rate in Canada, at 12.5 per cent.

Happy summer!
