

Pedestrian Safety Corridor Phase 1 – Pathway Project

Clark Street / Railway Avenue

The Town of Dundurn has now completed the work to install a multi-use pathway along Clark Street and Government Ave. This project was successfully completed with the financial assistance of the Government of Saskatchewan through the Traffic Safety Grant.

Project Details

- Clark Street & Railway Avenue is Dundurn's busiest thoroughfare. The pathway was installed alongside these roads to improve traffic safety for all road users as well as pedestrians and residents.
 - The first part of this pathway project included clearing and site preparation; trees and roots were removed and hauled away for disposal.
 - Construction of the pathway was completed
 - Landscaping will continue in 2023
-

The Town of Dundurn would like to thank everyone for your patience during the construction and completion of the pathway.

Residents/visitors may now enjoy the use of this pathway!

Thank you to the Government of Saskatchewan for providing financial assistance to this project!
